

GREENHOUSE SUPPORTS

With its range of supports, ARaymond offers value-added fastening solutions for greenhouse cultures, able to optimize labor costs, culture yield and profitability.

BENEFITS

-))) **Fast and easy** to install thanks to the ergonomic design.
-))) **Increased yields** by supporting the main stems and early trusses which may be broken during the growth of the fruits or lowering of the plant.
-))) **Protective** with rounded edges to reduce damages of plants and fruits.

FlexTruss

- **Optimized management** thanks to its one-fits-all-size design adapted to most branches' sizes and varieties
- **Fast and easy** to install with its flexible design allowing to be installed straight, avoiding to force the stem
- **Self-adaptive** back-bone which adapts naturally to the growth of the stem and fruits
- **Protective** thanks to its rounded edges and legs, with optimal positioning of the branch and less risks of damages

TwinHook

- **Protective**, prevents the main branch from splitting under the weight of the stems when lowering the plant
- **Cost saving** one TwinHook replaces two clips, resulting in less labor and less cost
